Dj gi joe rock that...

The 13th amendment

[... they say nothing wrong  
A change is gonna come  
You know and I know  
You know that I know  
I know that you know that something's gotta change is  
gonna come...]

[Bridge]

First you clean his hands from top to bottom  
Grand afferents then wash him, then you go pick the  
cotton  
Listen y'all I'm tired man, I swear [I've been running]  
For so long trying to be strong with you [I've been  
running]  
I'm exhausted [ohh yeah]  
My feet hurt [I don't...]  
Wanna run no more [I don't...]  
Wanna run no more [I don't know what's a bed]  
They said [a change is going]  
When [a change is going]  
When [a change is going (...)] everyday]

[Joell ortiz]

Ain't nothing changed except the chains  
That restraining our physical frame  
Mentally we still living the same  
It's lock down  
They knock down the towers to raise tax  
Anything they burn we pay back  
I live in the hood; you'll never bump into pat seajack  
But we spin the wheel every time we chill  
Cuz cops hate blacks, and hispanics they draw gats  
And just slam it before the ask where your hand is  
I don't see how a wallet can be mistaken for a cannon  
So please don't let em play us no more  
In everyway I'm ready, willing, and able to war  
Like any day I could pop I'd be in the front

Like, please let the force be with me in this pump  
Housing want me to work cuz I'm still on my mom's  
lease  
Threatening to raise the rent if I don't pick up them  
park leaves  
Ain't nothing in this world for free  
But somehow they got us fooled that this world is free

[Chorus] joell ortiz  
This is modern day slavery  
You see [yes]  
Carry I.d. [yes]  
Water is a fee [yes]  
This ain't how it's supposed to be man [I've been  
running]  
For so long trying to be strong with you [I've been  
running]  
I'm exhausted [ohh yeah]  
My feet hurt [I don't...]  
Wanna run no more [I don't...]  
Wanna run no more [I don't know what's a bed]  
They said [a change is going]  
When [a change is going]  
When [a change is going (...) everyday]

[Immortal technique]  
Our people are the product of genocide and slavery  
Everything in the ghetto was how it was made to be  
Designed in a process, prison industrial complex  
Niggaz transformed into numbers and objects  
We pay the devil rent for living in hell  
Cuz the projects was built on the spot where lucifer fell  
Incarcerated knowledge heavy weight (heavy nigga)  
Every black man should read through the romany  
chapter 28  
~cursed in the city like we're cursed in the field  
Cursed on the border, and cursed by the new world  
order  
Our sons and daughters were stolen by another people  
\_\_\_\_\_ end of the earth, land of the eagle  
This is the sequel to the prophecy  
Freedom when peaceful then violent is my philosophy  
I built an army, now I'm gonna build a nation  
The foundation of a new civilization  
And overthrow the plantation

[Chorus] immortal technique  
Modern day slavery see? [yes]  
It was designed to be [yes]  
Patriot act 3 [yes]  
Just wait young nigga you'll see [I've been running]

For so long, my people been strong, but yo [I've been  
running]  
I'm exhausted [ohh yeah]  
My heart hurts [I don't...]  
But I'm gunning them more [I don't...]  
But I'm gunning them more (fuck them, niggas! )  
I said, we gotta make em [a change is going]  
We gotta make em [a change is going]  
Quick motherfucker (lock and load)

Immortal technique
