Lights go out everywhere  
The world goes down in darkness  
Soothe your breath and listen  
To the multitude of sounds

Slowly creeping along  
Sanity of madness  
Solidity, diamond hardness  
Moulded from the stones

Just take a walk among them  
By the light of the bloodred moon  
Mystic circles and runes around and 'round  
You gonna understand them soon

Ruins in the Dark - they must be everlasting  
Ruins in the Dark - go down and find a passage back

Sounds are holding you down

Everything is silent  
Shades are drowning your voice  
Erasing all your words

Take care but be aware  
Something strange is out there  
Get lost deep in the night  
In the garden of the ruins

Ruins in the Dark - they must be everlasting  
Ruins in the Dark - go down and find a passage  
To the realms they must be undreamed  
Your way leads you to the Ruins in the Dark

Even the stones can bleed in the night  
There's only one way for you to find
