No one hears you  
No one fears you  
You are invisible - nothing - trace of belief

You're going blind - dazzeled by  
The beauty of the day  
Your footsteps slowly dissappear... realease your soul

This is a diary - the diary of an addict  
It's just a diary - only written words...  
Help me help me, get me get me out of here  
Help me help me, get me out of here  
Help me help me, get me out of here  
Help me help me, get me out of here

Your own mind leads you to this  
Just remembering where you are  
Beneath the cold and senseless... no trace of belief  
Help me help me help me, get me out of here  
Help me help me, get me out of here  
Help me help me, get me get me out of here  
Help me help me, get me out of here

Your throat swells your eyes glow  
Deep inside you swallow the blood  
Hit the darkness - feel the cold... release your soul  
Help me help me, get me get me out of here  
Help me help me, get me out of here  
Help me help me help me, get me out of here  
Help me help me, get me out of here

This is a diary - the diary of an addict  
It's just a diary - only written words.
