In our world, fire burns bright
Take care, or you get hurt
Flames kiss you good night
Ashes is what's left behind
Your dead, in my head
In our world you cry

We've gone too far now,
We fell too deep-
It's our burden to bleed
We've gone too far now,
We fell too deep-
It's our burden to bleed

We, we kill you all,
Kill you all
We, we kill you all
Kill you

We've gone too far,
We fell too deep,
Didn't you see, it's our burden to bleed?
Our life was just a lie,
Our way just pain.
What happened, what's left behind?

We've gone too far now,
We fell too deep-
It's our burden to bleed
We've gone too far now,
We fell too deep-
It's our burden to bleed

We, we kill you all,
Kill you all
We, we kill you all
Die all

What's left behind?
What's left behind?
What is left behind?
