

## Jason Mccoy "Fix Anything"

Visit "[Fix Anything](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We bought an old run down house  
We couldn't wait to get the keys  
Scraping windows painting walls  
Ya we could do it all just you and me

Oh but the money got tight that winter  
It took all we had to get to Spring  
We had our share of fights  
Still I thought you and I could fix anything  
(Whoa anything)

CHOURS:

Well that roof it still ain't leaking and the rains been  
coming down  
These hardwood floors are quite they don't make a  
sound  
And we've finally stopped the squeaking of the rusty  
front porch swing  
Baby what went wrong, I thought you and me could fix  
anything

I watched her tail lights fade away  
I sat on the front step and I cried  
Can we say we didn't talk , Can we say we're better off  
Can we say we tried, Can we say we tried?

Chours

We've left to many things undone  
Were giving up too soon  
We need to finish up teh garden  
And paint our baby's room

Chours

I'd give anything to hold you  
On our rusty front porch swing  
Baby come back home  
Cause I think you and Me could fix anything
