You sit alone at the end of the bed
Thinkin of the words we said
You know we feel so bad we don't want to fight
Guess we thought love would just walk us thru
Now we know we got some work to do
Were going to work out if it takes all night
I reach out to hold you and you smile
Looks like we walked another mile

And were learnin a lot about love
It teaches us a lesson everyday
Wherever there's a will
We will always find a way
Were learnin a lot about love

The bills pile up and the moneys tight
Going gets tough and we start to fight
You know that I blame you and you blame me
We never thought it would be this way
We've got to work at it everyday

So I lean on you and you can lean on me
You reach out to tough me and I smile
Looks like we walked another mile

And were learnin lot about love
It teaches us a lesson everyday
Wherever there's a will
We will always find a way
Were learnin a lot about love

And were learnin lot about love
It teaches us a lesson everyday
Wherever there's a will
We will always find a way
Were learnin a lot about love
Yeah were learnin a lot about love
