Today, on a downtown sidewalk,
I saw you today.
You smiled, you looked happy with him,
So I tried to smile.
I told you that I was strong now,
But baby I lied, I was dying inside

Chorus

Still, after all of this time,
One look at you stops this whole world of mine.
Still, just the thought of your kiss,
I close my eyes I can taste your sweet lips.
You get me, you always have always will,
Girl you make my heart, stand still

I've tried, I've tried to be strong and move on,
Believe me I've tried.
But then, I realized there's no way I can win.
When my whole world is turnin',
In the palm of your hand,
And I'm left standin'
Still, after all of this time,
One look at you stops this whole world of mine.
Still, just the thought of your kiss,
I close my eyes I can taste your sweet lips.
You get me, you always have always will,
Girl you make my heart, stand still

Now every day is the same nothing has changed,
You're all I see in my mind.
I bag, still a hard borrow,
For just one tomorrow,
But here I am frozen in time

Still, after all of this time,
One look at you stops this whole world of mine.
Still, just the thought of your kiss,
I close my eyes I can taste your sweet lips.
You get me, you always have always will,
Girl you make my heart, stand still
