Chorus

Ten million Teardrops can't be wrong
I can't deny it, all that I want
But my love for you is a long way gone

I thought that after all of this time
I'd have your memory off of my mind
But Ten Million Teardrops can't be wrong

Verse 1

I tell myself, that I don't miss you
Not for a moment do you cross my mind
I try to lie, say I don't need you
'Till these small drops of truth fall from my eyes

Chorus

SOLO

Verse 2

No, I can't say you didn't warn me
There'd come a reign of pain and regret
Try as I may, not to remember
This constant downpour, won't let me forget

Chorus

Ten Million Teardrops
Wish you were still here drops
Ten Million Teardrops Can't be Wrong.
