I always heard that God gave treasures
I never dreamed he send me one
For all the things that I've said
and the crazy things I've done
But I asked for forgiveness
and he blessed me with you
And now my search is over
Darling what I've found is true

I found beauty
I found love
I found hope, concern and trust
I found a flame that lights my fire
Keeps me burning with desire
I found you
I found more
More than I was praying for

Well I've been lonely for a long time
I couldn't find that special lady
To fill my life with love and joy
Someone who drives me crazy
Right then and there it happened
You came into my life
You took my heart and my soul
Filled me up inside

And now I have beauty
I have love
I have hope, concern and trust
I have the flame that lights my fire
Keeps me burning with desire
I have you, I have more
More than I was praying for
More than I was praying
Thank God I was praying
More than I was praying for
