Baby when I look at you with your hair fallin' down in
your baby blues

Standing there across the room I get so lost in the way
you move

It makes me reminisce back ten years ago on a night
like this

Teary eyed as you took my hand and I told you that I'd
be your man

So many things have come so many things have gone

One thing that's stayed the same is our loves still
growing strong

{Chorus}

Baby just look at us all this time and we're still in love

SOMething like this just don't exist

Between a backwoods boy and a fairy tale princess

People said it would never work out

Living our dreams and shattered all doubts

It feels good to prove 'em wrong

Living our love song

Oh darling would you look at me

with my heart beating fast and my shaking knees

It's pretty hard to believe after all these years I still
need you this bad

You're dancing in my arms with a spotlight moon in a

sea of stars

Oh girl we've come so far everything I want is
everything that you are

Just want to lay you down

Say I love you without a sound

I think you know what I'm talking about

{Chorus}

{Chorus}

It feels good to prove 'em wrong

Just living our love song
