Registration starts at 8  
Don't be late or else  
That's 8 as in the evening time  
Classes begin at 9 or 12  
We'll study each and every flower  
Per credit hour  
Then all devour a box of Krispy Kreme

So if you grow your knowledge tree  
Hydroponically  
Then come with me, it is, to Cannabis College

Instead of writing boring papers you roll your tests and  
quizzes  
You'll be curing common glaucoma  
Convinced you're acing physics  
You'll be setting quite a fine example  
Coring apples and carving cans  
You passed your first exam

You can take your notes and tokes  
Of signals made of smoke  
No joke it is, off you go to Cannabis College

And in the basement laboratory they're teaching short  
term memory  
Can anybody tell me where they're teaching short term  
memory?

Tell me have you met Professor Chong  
He's been here who knows how long  
His lectures often study classics  
From Northern Cal to Oregon

Throughout the days it's Dr. Dre  
And Dark Side of the Moon  
And Purple Haze  
And some randoms buy Pat Boone

With THC Ph. D's  
A BA in euphoria

Avoid the military  
Minoring in paranoia  
Job offers aplenty with GPAs at 4 point 20  
Get the blunted edge  
A certificate that says  
I made it through college
