she's so big hearted,
but not so remarkable
just an ordinary humble girl
expecting nothing as we're made to think
it's a pretty person's world
but you are beautiful and you better go show it
go look again, you gotta be true to your own
if you really wanna go to the top
do you really wanna win?
don't believe in living normal, just to satisfy demand
well if you wanna get free
and if you wanna do the passionate thing
and if you wanna get smart for the sake of your heart
you should own your name and stand up tall
and get real and see the beauty in ugly
well you are fresh, your face is fabulous
don't forget you're one of a kind
when nobody is checking the deeds you've done
and nobody is hearing your cries
you make all of the fashion statements
just by dressing up your mind
well if you wanna get free
and if you wanna do the passionate thing
and if you wanna get smart for the sake of your heart
you should own your name and stand up tall
and get real and see the beauty in ugly
and see the beauty in ugly
well if you wanna get free
and if you wanna do the passionate thing
and if you wanna get smart for the sake of your heart
and oh
you should own your name and stand up tall
and get real and see the beauty in ugly
see the beauty in a ugly
