What We Love Is
What We Become
What We Love Is
What We Become

If you wanna be a dancer
Just start dancing
If you wanna fly
Then just take off
If you wanna let go
Then don't hold on
If you wanna see the world
Then just get lost

You can be the guy with all the money
You can be the one who gives it away
You can be the keeper of the honey
You might get stung along the way

What We Love Is
What We Become
What We Love Is
What We Become

If you wanna think twice
Don't forget it
If you wanna be nice
Give a compliment
If you wanna be awesome
Pay my rent
If you wanna be the boss
Be the president
If you wanna start rapping
Just start rhyming
If you wanna hit the top
Then just start climbing
If you wanna relax
Then don't do nothing
Be like Jackson
Starting something

What We Love Is
What We Become
What We Love Is
What We Become

You know your heart
Is in your hands
Wherever the heart is
Where it begins again

If you want love
Let it be
If you want a friend
Count on me
If you want to see the world
In harmony
Then just stand up
And make your peace
If you're looking for a song to sing along
If you wanna get off
Just turn it on
If you wanna get toasted
Raise your cup
If you want it all
You're in love

What We Love Is
What We Become
What We Love Is
What We Become

You know your heart
Is in your hands
Wherever the heart is
Where it begins again

You know your heart
Is in your hands
Wherever the heart is
Where it begins again

You know your heart
Is in your hands
Wherever the heart is
Where it begins again
