Over the lights of sunset and vine
We're floating away
From the fortune and fame

And your lips are mine
They're raspberry wine
Your body's a map
I will follow into the sky

Cause what you got
Is all that I want
It's all that I want
And still that's not enough
It's not enough

Cause we're on fire
Walking love's highest
Burning wire
Helium hearts
We're falling skyward
We're never coming down
(Down-own, down-own,
Down-own-own-own)

We're so high the city below
Get's small and quiet
Every breath just makes us lighter
We're never coming down
(Down-own, down-own,
Down-own-own-own)

The further we go
We're losing our clothes
One shoe at a time
Thrown over the side

Like our fears and doubts
We cast them out
Till nothing is left
And we're standing together now

Cause what we got
Is all that we want
It's all that we want
And that's always enough
Enough for us

Cause we're on fire
Walking love's highest
Burning wire
Helium hearts
We're falling skyward
We're never coming down
(Down-own, down-own,
Down-own-own-own)

We're so high the city below
Get's small and quiet
Every breath just makes us lighter
We're never coming down
(Down-own, down-own,
Down-own-own-own)

I can't stay, no

We're on fire
Walking love's highest
Burning wire
Helium hearts
We're falling skyward
We're never coming down
(Down-own, down-own,
Down-own-own-own)

We're so high the city below
Get's small and quiet
Every breath just makes us lighter
We're never coming down
(Down-own, down-own,
Down-own-own-own)

(Down-own, down-own,
Down-own-own-own)
(Down-own, down-own,
Down-own-own-own)

We're never coming down
(Down-own, down-own,
Down-own-own-own)
We're never coming down
(Down-own, down-own,
Down-own-own-own)
We're never coming down
(Down-own, down-own,
Down-own-own-own)
