Ten to one, you're gonna smile when you walk by  
Fifty-four to one, you're gonna stop and say hi  
Two million to one, you'll be the love of my life  
Infinity to one, we're gonna last a life time

Sad world, it's a sad world  
It's a big, bad, crazy, scary, mad world when  
Everything that first goes up gotta come down  
Everyone that falls in love is gonna fall out  
According to the odds it's impossible, yes  
But we can beat the odds  
We're a miracle, yeah

We can beat the odds  
Woah oh oh  
We can beat the odds  
Woah oh oh  
Infinity to one  
Woah oh oh  
Infinity to one  
Woah oh oh

We can be the snow flake in July or  
A star that keeps shining when the sunrises  
We can make the choice to either fold or fight me  
Cause everybody is saying, "we believe in love's lies"

Sad world, it's a sad world  
It's a big, bad, crazy, scary, mad world when  
Everything that first goes up gotta come down  
Everyone that falls in love is gonna fall out  
According to the odds it's impossible, yes  
But we can beat the odds  
We're a miracle, yeah  
  
We can beat the odds

Woah oh oh  
We can beat the odds  
Woah oh oh  
Infinity to one  
Woah oh oh  
Infinity to one  
Woah oh oh

Sad world, it's a sad world  
It's a big, bad, crazy, scary, mad world  
Sad world, it's a sad world  
It's a big, bad, crazy, scary, mad world

Everything that first goes up gotta come down  
Everyone that falls in love is gonna fall out  
According to the odds it's impossible, yes  
But we can beat the odds  
We're a miracle, yeah

We can beat the odds  
Woah oh oh  
We can beat the odds  
Woah oh oh  
Infinity to one  
(Don't matter what they say)  
Woah oh oh  
Infinity to one  
(Don't matter what they say)  
Woah oh oh

We can beat the odds  
(Don't matter what they say)  
Woah oh oh  
We can beat the odds  
(Don't matter what they say)  
Woah oh oh  
Infinity to one  
(Don't matter what they say)  
Infinity to one  
(Don't matter what they say)

Infinity to one  
Infinity to one, oh oh  
We can beat the odds

We can beat the odds, oh
