(feat. Kara DioGuardi)

You never know you crossed the line
Til you get to the other side
You're caught just like a theft
In the light

Both of us has been deceived
To think we can't deny
All the things we don't like
Oh my

[Jason Reeves & Kara DioGuardi]
Everybody knows what we did
What we did, what we did
The only way out is to face it, to face it

Cause no one ever taught us to hide
You and I
No one ever taught us to hide

[Kara DioGuardi]
The hardest ones to fight
Are the ones that we wage inside
Silence it with a heart

[Jason Reeves & Kara DioGuardi]
Over fire

[Kara DioGuardi]
And some of us believe in things that

[Jason Reeves & Kara DioGuardi]
Keep our inner peace alive
And we can see the light

Everybody knows what we did
What we did, what we did
The only way out is to face it, to face it

Cause no one ever taught us to hide

You and I
No one ever taught us to hide
You and I

[Jason Reeves]
So everybody knows what we did
What we did, what we did

[Jason Reeves & Kara DioGuardi]
The only way out is to face it, to face it
No one ever taught us to hide

We did and we did
No one ever taught us to hide
You and I
No one ever taught us to hide

Oh my
No one ever taught us to hide

[Kara DioGuardi]
No one ever taught us to hide

[Jason Reeves]
Hey

[Kara DioGuardi]
Hey, hey
