"On Our Way"

Visit "[On Our Way](#)" on MotoLyrics.com

I know we barely met
And you don't know me yet
But I will show you every secret
So hurry, take my hand
Cuz life is way too fast

We may not be in love
But we are on our way
We are on our way
We are finally on our way

I wanna take you home
So we can be alone
We'll sing together in the silence
Hiding from the world
Just a boy and girl

We may not be in love
But we are on our way
We are on our way
We are finally on our way

It's an ancient destiny
That we'd discovered
It's crazy to believe

We are finally on our way
We are on our way
We are finally on our way

On our way
We are on our way
We are finally on our way

Fallin' for you
Never moving, babe
Fallin' like a star
Scatter it all off
We are on our way
