[Jason Reeves]

Run away from money
Quit your job and climb a tree
One with hearts instead of leaves

[Colbie Caillat & Jason Reeves]

Build a sandcastle big enough for us to sleep
Paint it golden with the sunrise

'Cause we are like a wingless bird crashing down to the
helpless earth
And if something's gonna break it
See it all around you
Feel it in your body
You'll be hiding in the shadows where love is still alive
'til all of it is burning

[Jason Reeves]

Through a field
We're walking
Empty as the open sky
We escape from all the troubles

[Colbie Caillat & Jason Reeves]

Found a waterfall and took a dive to cool our skin
Finally we found this feeling

'Cause we are like a wingless bird crashing down to the
helpless earth
And if something's gonna break it
See it all around you
Feel it in your body
We'll be hiding in the shadows where love is still alive
'til all of it is burning

[Jason Reeves]

Run away from money
Quit your job and climb a tree
One with hearts instead of leaves
