Somewhere between pain and pleasure  
The day goes by  
Somewhere between word and action  
The day goes by

You can try me without witness  
You can tie me to the stake  
I may burn but I'll still be with you  
Day or night, night or day

Don't you see you're the last to know  
Your mind is dead, your heart won't grow  
It's nice and steady, then weeks behind  
I've seen you there, I've seen you hide

I wanna know your mind's on me  
Look at me now, face towards me  
If you want me, you can find me  
Day or night, night or day

The hours slipping slowly by  
I look inside again  
I see the emptiness exposing  
All I have, all I am

I love the whispers in your eyes  
I look to stay alive  
Don't you know me, you can have me  
Day or night, night or day, endless

Somewhere between pain and pleasure  
Somewhere between the heel and toe  
Someone walks the straight and narrow  
Another lets the demon go

How can I lie here without feeling  
You lift me up, you make me whole  
I can trust you, will you look for me  
Day or night, night or day

Day or night, night or day  
Day or night, night or day
