Send your love as an inside joke
Send your love as an inside joke
Say and send it

Playing dead just to keep my head
Playing dead just to keep my head

Don't get up, I can find my way
Don't get up, I can find my way
My own way out

All I know is you're moving too slow
All I know is you're moving too slow

All I know is you're moving too slow
It's all I know

All I know is you're moving too slow
All I know is you're moving too slow
All I know is you're moving too slow
It's all I know

I thought it, I said it
I thought you set me up
I thought it, I said it
I know you set me up
