It's a sure shot, don't make it complicated
Keep your eyes on and your head in the air
You will know, you're taking it for granted
Poor thing

You're pathetic
All in your mind, all in your head
If you be here then you're as good as dead
All in your mind, all in your head

You were all talk, you've fallen out of favor
Left so gracious, no pressure
It's a lost cause, it's a lost endeavor
See, you brought it all upon yourself

I'm in your mind, I'm in your head
If you give, you're as good as dead
I'm in your mind, I'm in your head

You're in my mind, you're in my head
At this moment, you're as good as dead
You're in my mind, you're in my head
At this moment, you're as good as dead

You're in my mind, you're in my head
At this moment, you're as good as dead
You're in my mind, you're in my head
At this moment, you're as good as dead

You're in my mind, you're in my head
At this moment, you're as good as dead
You're in my mind, you're in my head
