effective incentives
how dare you stand corrected
no motives, intentions
a single though to call your own
deceptive, defensive
don't look at me rejected
conclusions, delusions
look at you standing all alone
all alone, all alone, all alone

a passive aggressive
you didn't get the message
a second opinion
a word that turned into a crime
a massive offensive
you seem to me obsessive
your version diversion
so tell me something I dont know
all alone, all alone, all alone

effective incentives
how dare you stand corrected
a motive, intentions
beyond all reconginition
deceptive, defensive
dont look at me rejected
a passive aggressive, you didn't get the message

a massive offensive you seem to me obsessive
conclusions, delusions
look at you standing all alone
