it Started when I came
I look up and I thought your away
I close my eyes and realize
That you're gone
Now I know that it's not easy
But can you stay by my side
Hope that you're not leaving
Cause I swear that

CHORUS:

I am yours you are mine
I promise that I'll be here forever
Cause I do loving you
Cause no one can love
Me more start by you

can i keep you forever
Now my dreams [...]
Now I know how much I do
I really do need you

-Repeat chorus-

No one can love me more start by you 2x
No one can... no one can... no one can...
No one can love me more start by you...

-Repeat chorus-

No one can love me more start by you...
No one can love me more start by you...
No one can love me more start by you...
