Though you are far away  
I am with you in every way  
Close your eyes  
And you will see  
Sleepy head lay close to mine  
And I wisper quietly in your ear  
Close your eyes  
And you will see  
If you ever feel sad, down and lonely  
Think of me  
I'm thinking of you  
If you ever feel you need somebody close to you  
Think of me  
I'm thinking of you  
So between you & I  
Time and miles are not to cry  
Close your eyes  
And you will see  
Though you are far away  
I'm with you in every way  
Close your eyes  
And you will see
