"Your Love Is Tragedy"

Can you feel my fear deep down inside
Well I hate to see myself in the mirror
I'm under tense, please don't talk to me
Don't you ever ... just let me be alone
For a moment
Alone with myself ... alone with my fear

I have no reason baby
To freak you out, but I can't stand any longer
To prove your love, choose your love
'Cause you know, your love is a tragedy for me

My mind says go, but my body says
Stay right there
Next to you, 'cause every time
You get to near me
Get to near me baby
You put me in the hardest situation of my life
I can't hardly believe what you're doing to me
