Years have past
Oh,I'm sure we had a blast
We've been through bridges
We've been through walls
We survived, we survived it all
I know you're innocent
We all know it was an accident
Things happened in a mile
But I'm sure behind those pillows hide our little smile
Chorus:
Don't ask me how
Don't ask me why
Just sit beside a tree,below that pretty sky
Don't ask me
Don't ask me why
As long as we're alive.....we'll shine
You've been with my brothers everywhere I go
We'll swim the rivers that'll never stop to flow
You cry, I cry
You die, I die
(Repeat Chorus)
We'll shine.....
We'll shine.....
We'll shine.....
We'll shine.....
We'll shine.....
