Hottest , finest

Verse 1

Everybody wanna be
Wearing jewellery
Escaping reality
Running the city
So you wanna be number one
Don't forget where you came from
It's not about me and you
It's about the things you do
Most guys don't have a clue
Material issues
How can I make you see the real things in life are free

Hottest , Finest

(Chorus)

We all need someone
That can show you what you love is (need someone)
That will never let you down (need someone)
To tell you that they love you and will always be around

(Bridge)

You could be the hottest , You could be the finest
It don't matter to me
You could be the baddest with the most stylish
You could be rollin' in money
It don't matter what you got if your heart is there in love
You could be the hottest , you could be the finest
It don't matter to me

Verse 2

I don't mind pretty things
Wouldn't mind a diamond ring
But trust me I'd be cheaping in
I'd take what life brings
You gotta do what you decide
But do what feels right

I just wanna keep it real

That's just how it feel
It's not about the JOB
But the R.E.S.P.E.C.T
How can I make you see the real things in life are free

Hottest , Finest

(Chorus)

We all need someone
That can show you what you love is (need someone)
That will never let you down (need someone)
To tell you that they love you and always be around

(Bridge)

You could be the hottest you coul be the finest
It don't matter to me
You could be the baddest with the most stylish
You could be rollin' in money
It don't matter what you got if your heart is there in love
You could be the hottest you could be the finest
It don't matter to me

If you got it you don't have to flaunt it
If I don't show it don't mean that I ain't got it
No it don't mean a thing
If you ain't got real things
Shu op shu op shu op

Repeat chorus 2x till end

We all need someone
That can show you what you love is (need someone)
That will never let you down (need someone)
To tell you that they love you and always be around
