Hey angel, consider your position  
Afraid to be consumed  
Savory  
Savory, your sympathy

Hey angel, fly over and bless me  
See you feign surprise  
And I'm all eyes  
And you're all you need to be

Hey angel, whatever position  
We consider fit to put you in  
Your protest, your complicity

Easy now

One hand will wash the other  
One hand will wash the other

Hey angel, fly over and bless me  
See you feign surprise  
And I'm all eyes  
And we're all we need to be, need to be

Easy now

One hand will wash the other  
One hand will wash the other
