This aint the first time u did me wrong
Its been going on for far to long
And every time u come bck in my life
I bet you can't wait to cross the line

I sed i wouldnt
I knew i shouldnt
U sed you'd try
But i knew you couldnt
Thanks to my heart
I'm torn apart
And that's y i need a little time

Chorus
So im gonna
Think about it, think about it once
I need to think about it, think about it twice
[i let u bck in my life]
Wot am i going to do about it
Cant live without ur love
But it's such a pain having you around
So im gonna
Think about it, think about it once
I need to think about it, think about it twice
[i let you back in my life]
Wot am i going to do about it
Cant live without ur love
It's kinda hard wen ur stuck
In the middle
Stuck in the middle
I aint got no one to blame but myself
Cos every time u lie to me i jst melt
I've allowed u to do wot u do
I wish for one you'd jst see it through
