CHORUS:

Gimmie water gimmie fire
Gimmie elements
Gimmie wind gimmie earth gimmie what you meant

So gimmie water and your daughter
Get it through your head
I'm not just here for life, I'm here when it's dead
Living it up and taking it up
Making it up and fucking it up!
Its not like anythings gonna go on
The only thing that does is life
That's when you gotta strap on a condom
Coz u can't give AIDS to your wife

CHORUS

Cocksucker, you don't know what it's like (what?)
Helping everyone for nothing it's a fight
Telling me now, telling you how?
Already I see the wind passing through your ears kid
Like a god-damn air tunnel
And as it did
Noise came out like a ship's funnel
But every lie
Is worth to die
Coz the more I get bent
I turn into an element

CHORUS x2
