Anything you gotta pay

You throw it on your floor
Fill it up, just pour it out

Your newly opened door
.....

Deep inside your heart

Thrash around inside you
.....

You're selling me a boomerang

It's.....

I want your head up on a pole
I want to raise your hate

Watch your head up on a pole

What's the point of agony?

No money, I can't stand it
If you'd just accept the pain

One fantastic planet

Push it

Pull out

Push out
Pull it down

I am in pieces

I have come unglued

You took a chunk of me with every bad mood

The wounds are deep

They may never heal

You wanna know

Pain's so real

Ha!

Fantastic death

..... agony

Fantastic death

Got another fatal

.....

If you want to hide your ...

Just keep it from the plane

Go ahead but keep in mind

It burns just the same
