"On The Run"

Visit "[On The Run](#)" on MotoLyrics.com

Feel the force beneath the Earth
We were separated at birth
Now there's one more thing to be done
We don't need to be on the run

We don't need to be on the run
We are gonna worship the sun
On the run
Its no fun

See the space between our heads
Copper fields and brass leads
My friends and I are searching for fun
But we don't need to be on the run

We are living inside fun
We now look behind the sun
On the run
Lookin' for fun

Shrimpy guys and monster dicks
They are just lookin' for kicks
Now there's nothing to be done
We don't need to be on the run

We always find our fun
If we aren't on the run
Now I am the vital one
Coz we don't need to be on the run
