Wish you were here
You feel so near
About you is all I care
But I fear
What is over there
And I can't bare
Another night all alone
So come on home

I feel so empty without you
But I can't get your face out of head
It is haunting me
As I lay in bed
Why did you have to leave
Now my heart is dead
Come back to me
You can't be dead

Wish you were here
You feel so near
About you is all I care
But I fear
What is over there
And I can't bare
Another night all alone
So come on home

You can't do this to me
You can't leave me here
Why don't you listen
This is what I feared
You're leaving but I'm not believing
What I see
This just can't be happening to me

Wish you were here
You feel so near
About you is all I care
But I fear
What is over there
And I can't bare
Another night all alone

So come on home

You're leaving but I'm not believing
What I see
This just can't be happening to me
This just can't be happening to me

Wish you were here
You feel so near
About you is all I care
But I fear
What is over there
And I can't bare
Another night all alone
So come on home

And I can't bare another night all alone
So come on home
