Every move you make is wrong  
Another bump on a road that is long  
You fight back again  
Try harder my friend

And may i ask you why  
Do you try  
It hurts to watch you  
And i know how it feels  
It kills to watch you fail  
Everything boils down to one wrong move  
Never makes sense and then you lose  
Again you fall  
Lose it all  
You try again  
and then my friend  
You fail again

And you fall on down again  
Failure is your best known friend  
You try hard but you lose  
(I really got to give it to you)  
Yet you refuse to give in  
(But I Won't)  
Give it all up and go on home  
Nobody will care you'll be left alone  
Just leave here now and go on home

And may i ask you why  
Do you try  
It hurts to watch you  
And i know how it feels  
It kills to watch you fail  
Everything boils down to one wrong move  
Never makes sense and then you lose  
Again you fall  
Lose it all  
You try again  
and then my friend  
You fail again

So as you fall

does it hurt  
So as you fail  
does it burn  
to learn that no one wants you  
So leave here  
Go on home and be all alone

And may i ask you why  
Do you try  
It hurts to watch you  
And i know how it feels  
It kills to watch you fail  
Everything boils down to one wrong move  
Never makes sense and then you lose  
Again you fall  
Lose it all  
You try again  
and then my friend  
You fail again

So as you fall  
does it hurt  
So as you fail  
does it burn  
to learn that no one wants you  
So leave here  
Go on home and be all alone
