Baby, baby

Baby, make your own sweet music  
Baby, make your own sweet music

Take a loving feeling  
Add some kissing to it  
Mix it in your heart and  
You'll be dancing on the ceiling

Baby, baby  
You got to make your own music  
You got to let it groove inside you  
You only need your soul to guide you  
And make me wanna play it with you

Baby, baby  
The melody of love is in you  
Just open up your heart and listen  
Hear the beat you're missing  
Baby, make your own sweet music

Straight from your heart and  
Let me show you how to use it  
I could teach you the part  
Every night and we could use it  
Playing all the music

Whoa, baby, baby  
I'm weeping every night without you

Baby, baby  
Make your own sweet music

Take it straight from your heart  
And let me show you how to use it  
I could teach you the part  
Every night and we could use it  
Playing all the music

Whoa, baby, baby  
I'm weeping every night without you

I love you, won't you  
Please believe me

I'll make you never want to leave me  
With every burning kiss I give you

Baby, baby  
You got to make your sweer music  
You got to let it groove inside you  
You only need your soul to guide you  
Now, now, now, now

Baby, baby  
The melody of love is in you
