blue doll you are making me blue
you i am in love with you
life is a harder caught in the circles sometimes
rain you make it rain
again you hurt me again
less is a virtue love will desert you sometime
faith has a bowl that will never know
you told me you changed
things won't be the same
i can't do this no no no
won't you let me go go go
let me go

blue doll you are making me blue
you i am in love with you
life is a harder caught in the circles sometimes
rain you make it rain
again you hurt me again
less is a virtue love will desert you sometime
winter will cry for the words and the lies
i hang back your name as i burn your chain
i can't do this no no no
won't you let me go go go go
blue you're making me blue
