You know the story, when real see real, we recognize
When you see the still flash you petrify
Steve Jobs seen death after just retiring
Takes vision of bill, god bless the deal
That's , that's bill, shit
Niggers know the sunshine eternal
I burn slow like disco inferno
Burn slow like ,
I work from myspace to the top of the food chain
The sperm hit the egg like a missile
Then 9 months later the ,
Exhibit, the whole world a move change
Electronics, niggers call my album detox
Cause they know I'm here to bring the new chronic
Rock , cold world, it's a rap nigger
Put your diamonds in the sky, take that nigger

Put your diamonds in the sky, we will shine , where you
shine
At time go by, we live, not die for you
Put your diamonds in the sky, we will shine , where you
shine
At time go by, we live, not die for you
Your , is mine

To whom may they concern if it's hate , or turn
,make the earn
Please god,drop a bomb on them
Tell a minister, on me
Before the men in black try to pin a crime on me
And root the , get the lime on me
Lord is my shepherd, tell , family, need,my records
Spread them across Europe in an organized method
We could heal the planet with an organized effort
Jews and the christians and the muslims and the
buddas,
Play this on a radio, you never heard another nigger
say this on the radio
We made it up,
Jay elect, stop the press,

Put your diamonds in the sky, we will shine , where you
shine
At time go by, we live, not die for you
Put your diamonds in the sky, we will shine , where you
shine
At time go by, we live, not die for you
Your , is mine

,sat around for years, day dreaming it is
,kids going to school we still on the bench
Early morning , new sleep, just dish
Hardcore rhyming like a diamond when I speak
Come hella high water we gonna make it out the bridge
I ain't graduated gladiator school with the snakes from
the bottom
Only one way to go to the tip or the top
With these non stop flows I'm a vet
Bars so hard shit hurt when it hit
My bars like prison bars, i'm trapped in a cage
, the fucking strongest
Rappers on the earth it's a curse ,
Black cloud follow my life, how worst could it get?
Respect, power and money in that exact order
I got it all nigger, I'm breaking your neck

Put your diamonds in the sky, we will shine , where you
shine
At time go by, we live, not die for you
Put your diamonds in the sky, we will shine , where you
shine
At time go by, we live, not die for you
Your , is mine.
