

## Jay Jay Johanson "Friday At Rex"

Visit "[Friday At Rex](#)" on [MotoLyrics.com](https://MotoLyrics.com)

She showed me how to dance on the floor  
The moves I could use  
Each friday at the rex we would meet  
Sometimes without words

The doorman said if you had arrived  
What colours you wore  
I wish we could have stayed all night  
And never, never stop

The dj played the songs we choose  
Your moves just hypnotized me  
Oh how I wish he plays another song

She always move her feet to the groove  
And all the heads turn  
So call your friends and bring them along

And get down on the floor

I'm here, I'm there I'm everywhere  
When I feel the beat  
With you in the round on the floor  
And love in your eyes

The dj played the songs we choose  
Your moves just hypnotized me  
Oh how I wish he plays another song

I wish we could have danced all night  
And never, never stop
