You shot it away
The dangerous missile of yours
Launched as a flirt
And I am the target
You sure made a hit
I'm shocked by the blastwave it caused
This wonderful combat
My resistance has resigned
This wonderful combat
Will this battle make you mine
Lovely strategy
You are a robot
Programmed to wipe me out
You spread your mines
They get off wherever I go
If I don't compute
Your impact will make me explode
It's an emergency
This wonderful combat
My resistance has resigned
This wonderful combat
Will this battle make you mine
Lovely strategy
