### Verse 1:

It was somewhere in between the crossing of that  
street  
And stepping on the other side that I became aware of  
time  
And I could swear, the big and little hands on 3:16  
Were pointing right at you--slightly back and right of  
me

And that's when I thought  
Of what I'd give to take this day as something we'd  
celebrate  
Each passing month  
It made me have to pause  
To stop and look around for cameras

### Chorus:

I'm waiting for someone to say, "Cut the take,"  
It's way too picture perfect, a scene unlikely to occur  
'cause it's  
A chance so golden it should only have a hold on the  
silver screen  
Why would it happen to me?  
Oh I... maybe I shouldn't doubt  
Just keep my mouth shut, let go  
Enjoying how it all plays out

### Verse 2:

It was halfway down that block, my balance seemed to  
stop  
And I was sober but I had to try to walk in a straight line  
'Cause it was like gravity would pull me to your side  
And my fingers would tingle when yours happened to  
brush mine

And that's when I thought  
If forces out of our control were pulling strings to keep  
us close  
And like a response  
To what I had in mind  
You tripped I caught you and then we caught eyes

Chorus:

I'm waiting for someone to say, "Cut the take,"  
It's way too picture perfect, a scene unlikely to occur  
'cause it's  
A chance so golden it should only have a hold on the  
silver screen  
Why would it happen to me?  
Oh I... maybe I shouldn't doubt  
Just keep my mouth shut, let go  
Enjoying how it all plays out

Bridge:

Next comes the part when  
We stay at an arm's length  
But we have our arms bent  
And I swear that all of this  
Seems to be following a script

Verse 3:

And now I'm inches from your lips where distance  
makes no sense  
And I could hear the credits roll as I moved in...

Chorus:

I'm waiting for someone to say, "Cut the take,"  
It's way too picture perfect, a scene unlikely to occur  
'cause it's  
A chance so golden it should only have a hold on the  
silver screen  
But thank God it happened to me  
Oh I... maybe I shouldn't doubt  
Just keep my mouth shut, let go  
Enjoying how it all plays out
