You and I have been chilling for a while now
Never knowing where this thing is gonna end
Will it be another kind of love thing
Or shall we stop and say we'll just be friends

Never thought it would end up being like this
Situation is getting too out of control
Now we're faced with an ultimatum like this
Should I just stay or roll

Coz I got everything you want girl
You got everything I need
And even though you got a man at home girl
You know your love is meant for me

So baby come on now
And take a little time to think it through
Why would u stay with a man
Who just don't understand
What it takes to be with you

We can't have your boyfriend...hanging around
Coz I can't go on like this...playing around
What's it gonna be
Is it him or me
Coz we can't have your boyfriend...hanging around

How can I turn and walk away now
And regret forever what I left behind

Knowing that deep inside my heart girl
You were made for me though you're not mine

Started off as just a little fun though
We thought that we would never cross the line
But now I'm crazy over you
Coz you can settle for his loving
Or you can start a life with me
And even though I know he saw you first girl
It don't mean a thing to me

I know it ain't easy

And you need a little time to think it through
Why would you stay with a man
Who just don't understand
What it takes to be with you

We can't have your boyfriend...hanging around
Coz I can't go on like this...playing around
What's it gonna be
Is it him or me
Coz we can't have your boyfriend...hanging around
