Ooooh

Someday I wonder if I ever change
Will you forget?
Do you remember how we used to be, when we first
met?
The way u would talk and run your hands through my
hair
And baby we used to walk holding hands without care

When I looked over my shoulder knowing you would be
there
You said that when we get older you would still love me
the way you love me

If you turn back
Baby you know I just can't say no
So don't turn back
Cause it took me so long to let go
We've closed the door
And without you my life aint sane
Still I'm not sure if I want you to love me again

Can someone tell me cause I don't know where
It all went wrong
No one can replace you or even compare
Since you've been gone
I see your face it appears upon the air that I breathe
I see your name in the words of everything that I read
I tell myself I don't care and I just hold back the tears
cause I'm trying to get over you

If you turn back
Baby you know I just can't say no
So don't turn back
Cause it took me so long to let go
We've closed the door
And without you my life aint sane
Still I'm not sure if I want you to love me again
