[Verse 1]

Who you are?
Girl I don't really know
But I would love to start
To know you some more
We both came here apart
But by the end of the night
You just might have my heart

So let's forget the wounds now forever away
Why wait 'till tomorrow?
There's no need to slow down (slow down)

I see this love forever
And we just need this moment to love

[Chorus]

To love, so baby spend this moment with me
Moment to love, to love, I just wanna own it
We just need this moment
To love, to love, to love, to love, to love, to love
We just need this moment
To love, to love, to love, to love, to love, to love

[Verse 2]

And girl you're beautiful,
I wanna show the whole world but they already know
'Cause it would be a crime, if we didn't try
Baby you know, baby you know

So let's forget the wounds now forever away
Why wait 'till tomorrow?

There's no need to slow down (slow down)

See this love forever
And we just need this moment to love

[Chorus]

To love, so baby spend this moment with me
Moment to love, to love, I just wanna own it
We just need this moment
To love, to love, to love, to love, to love, to love
We just need this moment
To love, to love, to love, to love, to love, to love

[Bridge]

I wish that I could save this night
Forever
Don't say goodbye and leave tonight
Now get out my love
Your love, a moment just with your love
A moment just with your love, a moment just with your
love
A moment just with your love

[Chorus]

Your love, to love, so baby spend this moment with me
Moment to love, to love, I just wanna own it
We just need this moment
To love, to love, to love, to love, to love, to love
We just need this moment
To love, to love, to love, to love, to love, to love

I just need a moment to love, to love, to love you
I just need a moment with you,
A moment out with you
