You always were the brightest girl in class
And always looked to make you live
And no one would even had to ask
If we were more than friends
You were my everything now
When I said I put that ring on
When I write songs and sing for
And I, I won't forget those days
And all the seasons change, one thing will still remain
You know it's true

You're just as beautiful to me, baby
You're still my universe lady
And you can ask me 1000 times it doesn't change
You're still the universe to me
You are

I ain't gonna lie and say I don't
Float occasionally
And every now and then we might flip out
But ain't love supposed to be, imperfect,
But worth it, and God knows, we've earned it
You're pretty much all I know
And I, I won't forget those days
And all the seasons change, one thing will still remain
You should know it's true

You're just as beautiful to me, baby
You're still my universe lady
And you can ask me 1000 times it doesn't change
You're still the universe to me

And I might forget to watch the sky at night
That don't mean those stars don't shine, bright
You should know that I still feel the things you knew
That I found you before, when our love was still brand new

You're just as beautiful to me, baby
You're still my universe lady
And you can ask me 1000 times it doesn't change
You're still the universe to me
You are.
