Obey me, seduce me and fucking please me / Kneel
down, now touch me, adore
me and serve me / Never forget my wish is your
command / What I want is what
I get... is what I get / My final warning / I'll hunt you
down / I hear you,
I feel you, I fucking smell you / Don't you dare to run
away / My final
warning-shot, you're begging / Your begging turns me
on... turns me on / My
final warning / I'll hunt you down / I hear you, I fucking
feel you, I smell
you / Don't you dare to run away / Please come out /
Come home with me /
I'll never touch you anymore / I can't be alone tonight /
It will be the
same as before / Don't hate me, call me / Come see me
/ Don't be afraid /
Where are you, can't fucking see you, I seek you / You
can't hide away from
me / My final warning / I will shoot you down
