Hey baby girl
Its been awhile
Since I had a chance
To see your pretty smile
I really hate that we can work this out
But now I gotta girl
I really care about
Its such shame that we missed out chance
Cause I was really feeling you
But now I gotta girlfriend
Its such a shame that you and me
Missed our opportunity
But now I gotta girlfriend
Now I gotta girlfriend
I know it hurts to see me
With somebody new
Knowing it could have been you
Girl you could have been my boo
And I'd be lying if I said
That I don't think about us
That I don't think about us
And what we could have been
I do regret us not hookin up
But what can I do Ive got someone new
And I love my girl
Im not going to hurt her
Guess what Im saying is
Bye bye to you
Its such shame that we missed out chance
Cause I was really feeling you
But now I gotta girlfriend
Its such a shame that you and me
Missed our opportunity
But now I gotta girlfriend
Now I gotta girlfriend
