[Jay-Z Talking] (Little Voice) {Some man talking }  
(Its something like, finding suckers on a house cap)  
Let me take yall somewhere right now {don't be  
scared} (I'm searching for a  
needle in a haystack, like this)  
A Nigga got to zone out with me man {that's alright  
don't be scared}  
Lets Zone Out

(I hear the people talk)  
I hear Yall  
(Whistling when they walk)  
Do yall hear me  
(Your kind is hard to find)  
Yall n\*ggas should twist up something real, real tight  
(Gone and relax your mind)  
Zone out with your boy  
If you don't smoke grab you something to drink, mix it  
up right  
(I hear the people talk), (whistling when they)  
Yo don't smoke or drink just light up a in scent, fuck it  
(Your kind is hard to find)  
Close your eyes follow me  
(Gone and relax your mind)  
I want you'll to really hear

[Verse 1]  
I speak through music  
I reach you dudes  
We can get deeper in the dirt  
Than clean shoes  
I refuse to lose  
I peep you creeps  
Three months in advance  
I see right through you Judas  
The man that I am  
And damn you don't know  
The harder you go at me  
The harder I flow  
Lets do this  
I'm just a mirror  
Reflecting your image

The minute you switch up your face  
I pick up the pace  
Its nothing to it  
Pull hammers from my waist  
We can clap at this amateur pace  
If that's whats cracking  
Or we can play this on All Madden  
Can you even follow?  
Not having a fear in the world  
I'm cool in my after life  
If I'm reading these chapters right  
Please would have you  
I breeze through Matthews  
Bleeding by half of you  
You cowards die a thousand deaths  
Fake fucks face down on your housing steps

Are yall even getting this message?  
I aint being a aggressive  
But if you testing my life  
Then shit I got to answer  
I got to cut off the cancer  
Youngin' pull your pants up  
You getting to big for your britches  
You fucking with a dude  
That did it with digits  
Breathings a privilege  
(Don't you know)? When you defeated  
(Wont you though) Through in the towel  
I'm better with vowels  
I'm a man of principles  
Damn near invincible  
In my own mind  
Now that my souls aligned  
I didn't know before  
Now my role defined  
To take over control of whats mine  
(Come and get me)  
Come and take my life you coming with me  
Come try and take me for granted  
I'll take you off this planet  
Damn it man this is a gift from god  
This aint Pakistan so your arms are too short to box  
Plus we knuckle up unorthodox  
Can't take me off my grind  
Get off my cock  
What you thought it's the ROC  
(I hear the..)  
Back in the mix of the scuffle  
Since 86 I was sick with the hustle  
Get a couple chicks to touch you

(Hard To..)

Feather weight fucker don't ever hate on the brother

[Jay-Z Talking]

Just playing with you

I'm gone stop now

I aint got to sell another record in my life

The blue print 2 baby!

See yall in November!

(little Voice)

I hear the people talk

Whistling when they walk

You kind is hard to find

Gone and (repeat 3 times)
