[Verse 1]

Let's do this for these babies  
Mercedes truck [?]  
Houses on acres  
Blatantly ? on ?  
Y'all need to step up y'all ?  
Life changed again I was already taking off  
My flight changed again  
Slight change of winds  
It's barely 12 noon  
And my wife changed again  
Baby needs Pampers  
Daddy needs at least three weeks in the  
Hamptons  
Please don't judge me  
Only hugged the block  
I thought my daddy didn't love me  
My baby getting chubby  
Cue that Stevie Wonder music  
Aww isn't she lovely  
Now I'm staring at praying that  
Things don't get ugly  
And I'm stuck in that old cycle  
Like wife leaves hubby  
? joint custody  
I need a ? right now  
Just the thought alone ? with me

[Chorus]

High on life  
I could die from the fall  
Imagine if I hit the floor  
Apologies in order  
To Blue Ivy my daughter  
If it was up to me  
You would be with me  
Sort of like daddy dearest

[Verse 2]

I dream filthy my mom and pops mixed me with  
Jamaican ?

What a set off  
And I know I'm not perfect baby  
I been through so much trauma  
It gonna be hard to reverse it  
With some doctors and some nurses maybe  
Teach me on how to treat a lady  
Open doors on the 'Cedes  
This relationship ? is complicated  
All I know is we ain't speaking everyday  
I ? hate it  
I don't wanna duplicate it  
I seen my mom and pop drive each other ? crazy  
And I got that ? blood in me  
I got his ego and his temper  
All is missing is the ? in me

[Chorus]

[Verse 3]

Father never taught me how to be a father  
Treated mother I don't wanna have to just repeat  
another leave another  
Baby with no daddy want no mama drama I just wanna  
Take her back to a time when  
Everything was calmer  
Out in Paris on a terrace  
Watching the Eiffel Tower  
And a Ferris wheel yet and still  
Nothing could prepare us  
For the beauty that you be Blue be  
Looking in your eyes is like a mirror  
Have to face my fears  
Cheer up  
Why could you just be happy  
Without these back and forth thoughts  
You too much like your daddy  
Badly I just wanna spent more time with him  
Sadly life wouldn't let me get around with him  
Now I got my own daughter  
Taught her how to take her first steps  
Cut the cord watch her take her first breath  
And I'm trying and I'm lying if I said I wasn't scared  
But in life and death  
If I isn't there

[Chorus]
