I done got in trouble again  
I tried, man, I'm back [Incomprehensible]  
I done got in trouble again  
I done got in trouble again

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change

When the singer Rob calls the police on me  
Y'all \*\*\* ran out and copped the CD  
See what I discovered is y'all snitch lovers  
I might speak but I don't \*\*\* with nobody

See what Doug, Jimmy & L.A. don't know  
These young'ns crossed the line with Hov, I'm lettin' it  
blow  
Had the papers writin' stories like 'Didn't they know?  
This what happen when they made that rapper CEO'

I know, it's just a matter of time before the steady hate  
Starts to overflow, then the levee breaks  
And my conscience go, ?You escape the RICO  
Why throw everything away over ego??

You paper chasin', they paper hatin'  
Billionaire Hov, you on the pace to make it  
F\*\*\* that exclamation, comma, quotations  
I love drama, period  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same

(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change

Smellin' like Patron, singin' dirty rap songs  
Tip-toein' in the crib like 6 in the morn  
Everyday it's the same, I said in 'Blueprint'  
That I'd never change, it's just a part of the game

Respect me, I'm a thug, I might cool out for a sec  
But expect me to bug, it's in my blood  
But if my chick leave me, she gonna leave me for  
somethin'  
She gone leave me 'cuz Halie, she ain't gonna leave  
me for nothin'

Picture me gettin' up with somethin' sleazy  
Somethin' somethin' so easy, you could take out its  
beat like nothin'  
Somethin' soon as you finish cuttin', you like, ?Leave  
me please?  
Not me, I need Angelina Jolie's company

So I ain't gonna make a move unless I got a plan B  
That'll happen the day I have a baby by Free  
Not to say that anythin' is wrong with Free  
Just to say that ain't nothin' wrong with me

If my hand's in the cookie jar, know one thing  
I'ma take the cookie, not leave my ring  
If my hand's in the cookie jar, know one thing  
I'ma take, hehe, y'all know what I mean  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)

I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change

You little \*\*\* ain't deep, you dumb  
You \*\*\* ain't gangsta, you gum  
I chew little \*\*\* ach thoo, spew little \*\*\*  
I can only view little \*\*\* like little \*\*\*

But in lieu of little \*\*\* tryin' to play that boy  
I phew phew little \*\*\* with the latest toy  
Unlike you little \*\*\* I'm a grown \*\*\* man  
Big shoes to fill \*\*\* grown \*\*\* pants

Prolly hustled with your pops, go ask your parents  
It's apparent, you're starin' at a legend  
Who put a few little \*\*\* in the they place before  
Tryin' to eat without sayin' they grace before

Blasphemous past, get your faith restored  
You're viewin' your version of the Lord  
God MC, little \*\*\*, applaud or forever burn  
In the fire that I spit at y'all

I rebuke you, little \*\*\*, the meek shall parish  
I'll woof you, little \*\*\*, I'm a project terrorist  
Cute, you little \*\* think you in my class  
Substitute little \*\*\* soon feel my wrath

I mute you, little \*\*\* you a little \*\*\*  
I shall abuse you, little \*\*\* I'm a ill \*\*\*  
Now shoot, you little \*\*\* go somewhere and play  
'Cuz the day I loose to you little \*\*\* no day  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change  
(I done got in trouble again)

I try to pretend that I'm different but in the end  
We're all the same, all the same  
(I done got in trouble again)  
I pray to God, Father forgive a \*\*\*  
I'm never gonna change, never gonna change
