I knew all the best round here
Me too, all know me quite clear
I'm guessing, I think you might know me too
A bad town, on this picture I've grew, grew, grew

Freeze time to find youth
steal mine, can't find my way
To alter day by day ?yeah

Girls say, It's never we've been friends

Any day people think then I ?d be a man
I'm cheating all the way that blew
I needed it to remember what I knew, knew, knew, knew

Freeze time to find youth
Steal mine, can't find my way
To alter day by day

Freeze time to find youth
Steal mine, can't find my way
To alter day by dayThe Calling Lyrics Index
